Professional Summary

Computer Science undergraduate (graduating 2026, CGPA 8.82/10) with hands-on experience in Python, SQL, data analysis, and BI dashboard development using Power BI. Skilled in building end-to-end analytics pipelines, translating large datasets into actionable business insights, and delivering structured analytical outputs across cross-functional teams.

Technical Skills

Data Analysis: EDA, Data Cleaning, Data Validation, Statistical Analysis, KPI Reporting

Programming: Python (Pandas, NumPy, Matplotlib), SQL (Joins, Aggregations, Filtering)

BI & Visualization: Power BI (DAX, Power Query), Tableau, Excel (Pivot Tables, Charts)

Tools & Frameworks: Jupyter Notebook, Git, Data Modeling, REST APIs

Projects

Job Market Intelligence Dashboard

github.com/harigowtham2005/Job-Market-Intelligence-Dashboard

Python, Pandas, MySQL, Power BI, DAX, Power Query

- Built an end-to-end analytics pipeline on 5000+ job postings from 53 companies across 17 cities using Python, MySQL, and Power BI.
- Analyzed hiring trends, salary distributions across experience levels, competition ratios across roles, and top in-demand skills to surface actionable talent market insights.
- Developed a dedicated Fresher Insights dashboard highlighting entry-level opportunities, fresher-friendly companies, and skill gaps for new graduates.
- Delivered interactive Power BI dashboards with DAX-driven KPIs and SQL-backed metrics, enabling data-driven career and recruitment decisions.

Mobile Sales Dashboard

github.com/harigowtham2005/Flipkart-Mobile-Sales-Dashboard

Python, Excel, SQL, Power BI, DAX, Power Query

- Analyzed 3,114 mobile products from a Kaggle dataset, covering Rs.82M+ in total sales and Rs.6M+ in total discounts across multiple brands and price segments.
- Identified Samsung as the most purchased brand and Apple as the highest revenue-generating brand through comparative brand performance analysis.
- Uncovered 4GB RAM as the most popular memory configuration and tracked sales trends, ratings, and revenue distribution across price segments.
- Built interactive Power BI dashboards with dynamic slicers for Memory, Storage, Brand, and Rating, and delivered KPI cards and trend charts for executive-level reporting.

Internship Experience

Data Analyst (Virtual Job Simulation)

Feb 2026 – Mar 2026

Deloitte

- Executed structured EDA on large datasets to validate accuracy and completeness, ensuring 100% data integrity across all reporting cycles.
- Performed SQL joins and aggregations to extract actionable business insights from relational databases.
- Designed and delivered interactive dashboards enabling business units to monitor KPIs and act on analytical findings.
- Cleaned and validated diverse datasets using Excel and statistical techniques, aligning all outputs with quality assurance standards.

Education

B.Tech in Computer Science Engineering

2022 – 2026

Swarnandhra College of Engineering and Technology

CGPA: 8.82 / 10

Certifications

- Google Data Analytics Professional Certificate – Coursera
- Data Analyst Virtual Job Simulation – Deloitte
- SQL Certification – Simplilearn
