

HARI GOWTHAM ARETI

+91-9866912087 — harigowthamareti109@gmail.com — [LinkedIn](#) — [GitHub](#)

Professional Summary

Computer Science graduate (2026, CGPA: 8.82/10) with experience in Python, SQL, machine learning, ETL pipelines, data analysis, and full-stack application development. Skilled in building analytics solutions, developing ML models, and creating interactive dashboards. Strong analytical and problem-solving abilities with experience delivering data-driven solutions.

Technical Skills

Programming: Python, SQL

Data Analysis: EDA, Data Cleaning, Data Validation, Statistical Analysis, KPI Reporting

Machine Learning: Scikit-learn, TensorFlow, OpenCV, Supervised Learning, Unsupervised Learning, Model Evaluation

BI & Visualization: Power BI (DAX, Power Query), Tableau, Excel

Backend: Flask, ML model integration, database management, backend development, and AI application deployment.

Tools & Frameworks: Flask, Git, Jupyter Notebook, REST APIs, Data Modeling, Dashboard Development

Projects

Job Market Intelligence Dashboard - Python, SQL, Power BI, DAX, Power Query

[GitHub](#)

- Built an analytics pipeline on 5,000+ job postings from 53 companies.
- Developed Power BI dashboards with DAX KPIs and hiring insights.
- Analyzed skills, salaries, and fresher job market trends using SQL.

Service Request Management System - Python, Flask, HTML, CSS, JavaScript, SQLite

[GitHub](#)

- Developed a full-stack application for service request management.
- Designed SQLAlchemy models for users, tickets, and assignments.
- Automated escalation workflows to improve SLA compliance.

Deepfake Image Detection - Python, TensorFlow, EfficientNet, Flask, OpenCV, LLM

[GitHub](#)

- Built a CNN-based deepfake classifier using EfficientNet.
- Applied OpenCV preprocessing and image augmentation techniques.
- Achieved 91%+ accuracy using multiple evaluation metrics.

Experience

AI/ML Engineering Intern — Blackbuck Engineers

Jan 2025 — Apr 2025

- Built Python ETL pipelines, improving data processing efficiency by 25%.
- Performed preprocessing and feature engineering for ML model development.
- Deployed Flask-based ML APIs and evaluated model performance metrics.

Data Analyst Virtual Experience Program — Deloitte

Feb 2026 — Mar 2026

- Conducted exploratory data analysis to ensure data quality and accuracy.
- Used SQL joins and aggregations to generate business insights.
- Built dashboards and validated datasets for decision-making support.

Education

B.Tech in Computer Science Engineering

2022 — 2026

Swarnandhra College of Engineering and Technology

CGPA: 8.82/10

Certifications

- Google Data Analytics Professional Certificate — Coursera
- Data Analyst Virtual Job Simulation — Deloitte
- AI/ML Engineering Internship Certificate — Blackbuck Engineers
- SQL Certification — Simplilearn
