Professional Summary

Detail-oriented Computer Science undergraduate (B.Tech, 2026, CGPA 8.82/10) with hands-on experience collecting, cleaning, and analyzing large datasets to surface trends and support data-driven decisions. Proficient in SQL, Python (Pandas, NumPy, Matplotlib), and Excel, with demonstrated ability to build Power BI and Tableau dashboards that translate complex data into clear, executive-ready insights.

Technical Skills

- **Data Analysis:** Data Cleaning, Data Validation, EDA, Statistical Analysis, Trend & Pattern Identification, KPI Reporting
- **Programming & Querying:** SQL (Joins, Aggregations, Filtering), Python (Pandas, NumPy, Matplotlib), REST APIs, Process Automation Scripting
- **Visualization & Reporting:** Power BI (DAX, Power Query), Tableau, Advanced Excel (Pivot Tables, Charts, Formulas), Dashboard Design
- **Tools:** Jupyter Notebook, Git, Data Modeling, Stakeholder Requirements Gathering

Projects

Job Market Intelligence Dashboard | GitHub

Python, SQL, Power BI, DAX, Power Query

- Analyzed 5,000+ job postings from 53 companies across 17 cities using an end-to-end Python and SQL pipeline.
- Identified hiring trends, salary distributions, and in-demand skills through statistical analysis to support recruitment decisions.
- Automated SQL-backed KPI calculations and built Power BI dashboards with DAX measures for executive reporting.
- Delivered a dedicated Fresher Insights dashboard highlighting entry-level opportunities and skill gaps for new graduates.

Flipkart Mobile Sales Dashboard | GitHub

Python, Excel, SQL, Power BI, DAX, Power Query

- Cleaned and analyzed 3,114 mobile records covering Rs. 82M+ in sales and Rs. 6M+ in discounts using Excel and SQL.
- Conducted brand performance analysis, identifying Samsung as the top-selling brand and Apple as the highest revenue-generating brand.
- Applied statistical techniques to uncover sales trends, customer rating patterns, and revenue distribution across price segments.
- Built Power BI dashboards with dynamic slicers, KPI cards, and DAX measures for executive-ready reporting.

Work Experience

Data Analyst — Virtual Job Simulation

Feb 2026 – Mar 2026

Deloitte

Remote

- Performed exploratory data analysis (EDA) on large datasets to validate accuracy and completeness, achieving 100% data integrity across all records.
- Wrote SQL joins and aggregations to query relational databases and extract actionable business insights for stakeholders.
- Designed interactive KPI dashboards that enabled data-driven decision-making across multiple business units.
- Cleaned and validated datasets using advanced Excel functions and statistical techniques to ensure QA compliance.

Education

B.Tech in Computer Science Engineering

2022 – 2026

Swarnandhra College of Engineering and Technology

CGPA: 8.82 / 10

Certifications

- Google Data Analytics Professional Certificate — Coursera
- Data Analyst Virtual Job Simulation — Deloitte
- SQL Certification — Simplilearn
