PROFESSIONAL SUMMARY

Detail-oriented Computer Science undergraduate (B.Tech, 2026, CGPA 8.82/10) with hands-on experience collecting, cleaning, and analyzing large datasets to surface trends and support data-driven business decisions. Proficient in SQL, Python (Pandas, NumPy, Matplotlib), and Excel for data analysis, and skilled in building Power BI and Tableau dashboards that translate complex data into clear, executive-ready insights.

TECHNICAL SKILLS

- **Data Analysis:** Data Cleaning, Data Validation, EDA, Statistical Analysis, Trend & Pattern Identification, KPI Reporting
- **Programming & Querying:** SQL (Joins, Aggregations, Filtering), Python (Pandas, NumPy, Matplotlib), REST APIs, Process Automation Scripting
- **Visualization & Reporting:** Power BI (DAX, Power Query), Tableau, Advanced Excel (Pivot Tables, Charts, Formulas), Dashboard Design
- **Tools:** Jupyter Notebook, Git, Data Modeling, Stakeholder Requirements Gathering

PROJECTS

Job Market Intelligence Dashboard | GitHub

Python, SQL, Power BI, DAX, Power Query

- Analyzed 5,000+ job postings from 53 companies across 17 cities via end-to-end Python and SQL pipeline.
- Identified hiring trends, salary distributions, and in-demand skills through statistical analysis.
- Automated SQL-backed KPI calculations and built Power BI dashboards with DAX for recruitment decisions.
- Delivered a Fresher Insights dashboard highlighting entry-level opportunities and skill gaps.

Mobile Sales Dashboard | GitHub

Python, Excel, SQL, Power BI, DAX, Power Query

- Cleaned and analyzed 3,114 mobile records covering Rs. 82M+ in sales and Rs. 6M+ in discounts via Excel and SQL.
- Conducted brand performance analysis; identified Samsung as top-selling, Apple as highest revenue brand.
- Applied statistical techniques to uncover sales trends, rating patterns, and revenue distribution by price segment.
- Built Power BI dashboards with dynamic slicers, KPI cards, and DAX measures for executive-ready reporting.

WORK EXPERIENCE

Deloitte

Feb 2026 – Mar 2026

Data Analyst — Virtual Job Simulation

Remote

- Performed EDA on large datasets to validate accuracy and completeness, achieving 100% data integrity.
- Wrote SQL joins and aggregations to query relational databases and extract business insights for stakeholders.
- Designed interactive KPI dashboards enabling data-driven decision-making across business units.
- Cleaned and validated datasets using advanced Excel functions and statistical techniques for QA compliance.

EDUCATION

Swarnandhra College of Engineering and Technology

2022 – 2026

B.Tech in Computer Science Engineering

CGPA: 8.82 / 10

CERTIFICATIONS

- Google Data Analytics Professional Certificate — Coursera
- Data Analyst Virtual Job Simulation — Deloitte
- SQL Certification — Simplilearn
